REGION II
C.R.C. 93

MUSÉE DE QUÉBEC (MUSEUM)

Situated on the historic Plains of Abraham, the Musée de Québec maintains the most significant collection of Québec art from the very early years of European life in North America to the most current trends in Quebec art. Painting, sculpture, silver, prints and drawings and all recent visual art forms are on exhibit in Québec's national art museum. The museum is renowned for its excellent selection of travelling exhibitions from other parts of Canada and abroad. Museum shop, restaurant, library and cultural activities.

MUSÉE DE LA CIVILISATION

An institution of international stature, the Musée de la civilisation is the leading provincial museum created by the Canadian Government, opened its doors in October 1988.

Focusing on the conquest of the mind and the human capacity for intelligence, the museum offers activities that draw upon the social sciences, using multiple modes of communication.

Through a thematic approach, creating events, the Musée de la civilisation is the scene of research, exhibitions, discussions and participation...

It takes a closer, dynamic view of civilization and the human experience as a whole, while remaining strongly rooted in Québec's cultural reality.

BASILIQUE-CATHÉDRALE NOTRE-DAME-DE-QUÉBEC (basilica)

The portal of Heaven is the stone door on the common square. The basilica, the fruit of nearly 350 years of work, is richly adorned and has an impressive number of works of art including its canopy, episcopal throne, statuettes, stained glass windows, painting and classical lecture, a gift from Louis XIV. Governor Frontenac, de Calvados and de La Jumelière of New France and most of the bishops of Québec are buried in the crypt. The basilica presents a historical and cultural account and light show. A spectacular 3D multimedia show-terracotta a period of Québec history on these stones, in French or English simultaneously.

TOUR DE CALÈCHE
Coach tour of Québec City and area, experience the European charm of the first French settlement in North America. This is your chance to visit historic first hand - Le plac de armaux, the Quebec basilica, City hall, the National Assembly, the Plains of Abraham, the Capitale the Place Royale.
