ASHRAE ENERGY AWARDS

The ASHRAE Energy Awards recognizes outstanding achievements in the field of energy management. Entrants must be ASHRAE members who played significant roles in the design or development of the energy-conserving aspects of a project. A project must have been in successful operation for at least one year, with actual energy consumption data for those twelve months submitted for evaluation.

Entries to the Society competition must first have been declared winners in an ASHRAE Chapter Competition, followed by winning at the regional level, except in the case of international entries.

Winners of chapter and regional competitions will be the focus of publicity generated at the local level and will receive peer recognition from the presentation of awards at chapter and regional meetings.

If you are interested in participating in a Chapter Energy Award competition, please contact Charles Clemance — Energy Management Chairman, phone 451-2500.
