MEMBERSHIP IN ASHRAE

Membership in ASHRAE is an indication of stature and professional consciousness. No truly professional engineer or technician can avoid the obligation of making a personal contribution to his/her chosen field of endeavour. Each person's professional advancement is made possible by the fund of knowledge and experience left by others. It is your duty to add to this fund...according to your individual ability.

Whether your particular interest is research development, production, application, technical service, sales and marketing, or executive, YOUR professional advancement will be enhanced by membership in ASHRAE and active participation in its activities. The many professional benefits which are available through ASHRAE are made possible by the voluntary, cooperative efforts of the members. Through active participation in Society affairs, members develop their professional abilities, contribute to existing technical knowledge, find new approaches to old problems, aid in engineering education, and find opportunities and stimuli for growth.

PROGRAMME & TABLE TOP SPEAKERS

Part of an ASHRAE chapter's strength is measured by its speaker programme. We are constantly in quest of dynamic speakers to address the membership on topics of current interest. If you have suggestions for future meetings, please contact your programme chairman, Peter Golem.

Our monthly featured speaker is requested to make a "generic" presentation if his topic relates to a technological innovation or application of HVAC equipment. However, we do have a forum for a partisan presentation which involves the "table top" presentation. If you have a product or service that you would like to promote at one of our monthly meetings, contact Peter Golem for further details.

MEMBERSHIP NIGHT

That's this meeting. Please plan on bringing a guest to the dinner and the meeting. Preferably the guest should or could be a potential member, but could be a client, employer, employee or anyone that might be interested in what ASHRAE is, what we are, who we are and why we are.
