TECHNOLOGIES FOR THE 21ST CENTURY

Dr. Bill Fyfe
Professor Emeritus
University of Western Ontario

Date: Monday, 23 November 1998
Time: Mingle at 5:30-6:30, Dinner at 6:30
Place: Highland Golf & Country Club, 279
Commissioners Rd. E.

The meeting on 23 November is a joint event sponsored by local chapters of five related technical organizations:

- IFMA - International Facility Managers Association
- ASHRAE - American Society of Heating, Refrigeration and Air Conditioning Engineers
- OAA - Ontario Association of Architects (L.S.A.)
- AATO - Association of Architectural Technologists of Ontario
- CSC - Construction Specifications Canada

This is an opportunity to mingle over dinner with members of other local organizations involved in building technologies. Bill Fyfe's address promises to be engaging and provocative.

Bill Fyfe is an international authority on topics of ecology, environment, technology and society. For the past 25 years, he has been associated with the Science Faculty at The University of Western Ontario. He is now heavily involved in international projects with extensive travel to Asia, South America and Europe. As global population moves towards 10 billion, Bill sees great opportunities for science and engineering to address issues related to technical infrastructure, urban planning, energy, construction technology and waste management.

For ASHRAE members who have purchased the meal plan, cost of advance tickets is \$5.00 each, available from Peter Golem at 679-8660, Fax 679-2145.

President's Message:

Those of you that made our October meeting, and there were quite a few (48 by my count), heard a great talk from Tom Carter on Kitchen Ventilation. Being Membership Promotion night, it was great to see a number of guest/potential members out to our meeting. The guests that I had a chance to talk to afterwards all commented that they had enjoyed the meeting. If you were a member who brought a guest(s) ... Thank you! Why not give them a follow-up call to see if they'd like to join ASHRAE.

This month's joint meeting should also be another "don't miss" meeting. It gives a lot of us an opportunity to meet others such as Architects and Building Owners who are involved in areas related to our industry. Be sure to contact Peter Golem for your tickets if you have not already done so. **(TICKET SALE ONLY)**

TEGA:

Those who are interested in submitting a technical project for review please contact Paul Roszell by phone or see him at November's meeting to discuss

Internet:

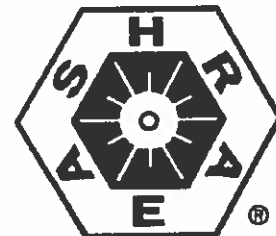

The ASHRAE Society operates a web site at www.ashrae.org. Members can access additional information at the site if they have their card with their pin number. The London chapter is also starting a web site at www.execulink.com/~tpollard/ashrae.html which will have postings about the monthly meetings. Check these sites out and let us know what you think.

Students:

Those Students having difficulty arranging transportation to ASHRAE London Chapter meetings are encouraged to contact any Board of Governor or Committee Chair member to arrange a ride. We would be more than happy to provide this service for you!
