**October Meeting Topic:**

**Kitchen Ventilation**

Tom Carter is Vice President/General Manager of the Ventmaster Division of Garland Commercial Ranges.

Tom began his career in 1978 designing kitchen cooking ventilating systems. He has spent most of the past twenty years in the marketing and manufacturing sectors of the industry with increased involvement in the commercial and industrial ventilation systems. His field experience spans from such challenging projects as an armed forces base in the high Arctic to stadiums, hospitals, high rise towers, food courts and underground transit systems. Tom has also written a book titled *Kitchen Ventilation Systems*.

Tom is currently the Vice Chairman of ASHRAE TC 5.10 Kitchen Ventilation - Main Committee and past Chair of the ASHRAE Handbook Sub-Committee

Tom's presentation will include an overview of kitchen ventilation issues and status report on ASHRAE's progress towards a new standard in kitchen ventilation

**November Meeting Preview:**

Our meeting on November 23<sup>rd</sup> is a joint event sponsored by local chapters of five related technical organizations - IFMA, ASHRAE, OAA, AATO, and CSC.

This is an opportunity to mingle over dinner with the members of other local organizations involved in building technologies. Bill Fyfe's address promises to be engaging and provocative.

*Bill Fyfe is an international authority on topics of ecology, environment, technology, and society. For the past 25 years, he has been associated with the Science Faculty at the University of Western Ontario. He is now heavily involved in international projects with extensive travel in Asia, South America, and Europe. As global population moves towards 10 billion, Bill sees great opportunities for science and engineering to address issues related to technical infrastructure, urban planning, energy, construction technology, and waste management.*

Attendance at the November meeting will be on a pre-paid ticket basis. Tickets are \$5.00 each for ASHRAE members who have purchased the meal plan. Contact Peter Golem (679-8600) for tickets *before* October 30, 1998.

Fax: (519)662-2491

**President's Message:**

I was glad to see a strong turn out to our September meeting (42). The change of date (Tuesday) and location did not seem to have a detrimental effect on the attendance. In fact, the change of scenery may have helped! Let the members of your executive know your opinion on the change. If our membership viewed this change as a favourable one, then perhaps from time to time we may look at something similar. Please note, this months meeting is back to our usual date and location at the *Highland Country Club*.

As a reminder, this is the time of year when we need your membership dues to meet our cash flow requirements and firm up our financial projections. Please try to drop these off to Tom Pollard at this months meeting.

**Membership:**

If you have not already done so, please forward your chapter dues and meal plan cheques to Tom Pollard. Chapter dues (\$35.00) may be paid with your society registration to Atlanta. Note that the meal plan rate increases from \$140.00 to \$160.00 on Nov. 30/98.

We are also interested in new Society and Chapter members. If you know of anyone that may be interested in joining ASHRAE, feel free to invite them to a meeting or let me know and we will explain what ASHRAE is about

**Internet:**

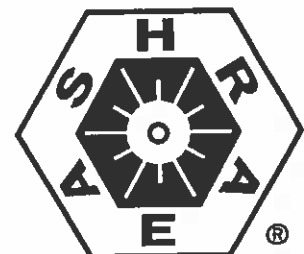

The ASHRAE Society operates a web site at [www.ashrae.org](http://www.ashrae.org). Members can access additional information at the site if they have their card with their pin number. The London chapter is also starting a web site at [www.execulink.com/~tpollard/ashrae.html](http://www.execulink.com/~tpollard/ashrae.html) which will have postings about the monthly meetings. Check these sites out and let us know what you think.

**Students:**

Those Students having difficulty arranging transportation to ASHRAE London Chapter meetings are encouraged to contact any Board of Governor or Committee Chair member to arrange a ride. We would be more than happy to provide this service for you!!
