Speaker: John Goshulak, P.Eng

John is a Professional Engineer with a degree in Mechanical Engineering from University of Toronto, who is licensed to practice in the province of Ontario. He has spent the past 16 years in the hydronic heating industry with various manufacturers, including Viessmann Manufacturing Company Ltd., with whom he is presently fulfilling the responsibilities of Director of Sales and New Business Development. John is an active member within the industry, holding several positions in oil and hydronic heating associations.

He is currently Chairman of the Canadian Hydronics Council, past chairman of the Hydronics Marketing Group, serves on committees within CSA, the Canadian Oil Heat Association and HRAI, and is a voting member of ASHRAE. John currently resides in Toronto with his wife and three children.

The presentation will cover the development of the standard, the basic layout of the document, and some specific examples taken from the document. As well, there is current development on a "How To" document (final draft if this if being confirmed and will be ready for review by the committee), which will be a support document, which hopefully explains the code in layman's terms. The "How To" will be a CSA Plus companion guide.

Topic: Hydronic Heating Code, CSA B214 Standard

Location: The Lamplighter Inn, 591 Wellington Rd., S.

BUFFET MENU

Strips of Chicken or Beef Stirfry homemade Spinach and Three cheese Stuff Canneloni with salads, assorted deli meats, chef's potato, vegetables, and sweet table

Meal Cost \$32.00, Or Meal Plan \$150.00

Students \$15.00

Monday FEBRUARY-25 -2002

Social—5:15 pm

Dinner—6:00

Program—7:15 (Approx.)

President's Message

Our Jan 28th chapter meeting was once again very successful, we had 42 members and guests in attendance. The speakers from TSSA provided us with lots of information on the current roll TSSA plays regarding the pressure vessel act and the gas code regulations, one of the most important pieces of information being a source of contact names and numbers.

Our Feb 25th meeting also promises to be very informative as Mr. John Goshulak speaks to us regarding the New Hydronic Heating Code. I'm sure every plumbing and mechanical contractor in the area would be keen to get an up front understating of what is in this code. Please feel free to invite some of your friends and associates out to the meeting.

We have assembled a nominating committee to bring qualified names to the membership for the executive for next year. If all goes well we will have elections in May for the new executive. If you have a person in mind who you think can help the chapter I am sure they would love to hear from you.

Last of all, your "confirmation of attendance" to the chapter meetings is greatly appreciated. Last month we had 34 people confirm and 42 show up (which is a good thing) however had we known we would have 42 in attendance the Lamplighter would have provided us with a larger room and we would have not been so snug. Please make an effort to advise the telephone committee if you will be attending, and if you will be bringing a guest.

See you on Monday the 25th.

Daryl Somers

ASHRAE LONDON GOLF TOURNAMENT

date: Monday June 3/2002

location: Forest City National (scramble/best ball)

estimated cost: To be confirmed

contact : Hugh Palser 519-471-9382 to book your foursome

This year we are hoping to have enough golfers (132 required) so that a shotgun start can be used. Last year we had 108 golfers so we need a few more foursomes to register this year.

TSSA SEMINAR

One of the items that came from the Jan 28th meeting was the interest in having a representative from TSSA (very possibly our chapter member Eric Shaw) put on a specific seminar for the consulting engineers, sales personnel, and other groups who have strong ties to the requirements of the gas code regulations, but do not desire to become a "certified technician" This could be set up in various formats to accommodate our chapter members. If you have some interest in this and can provide some input on what you would like to be covered etc. I would like to hear from you.
