Fax: (404) 321-5478
www.ashrae.org

ASHRAE, the American Society of Heating, Refrigerating and Air-Conditioning Engineers is an international organization of 50,000 persons with chapters throughout the world. The Society is organized for the sole purpose of advancing the arts and sciences of heating, ventilation, air conditioning and refrigeration for the public's benefit through research, standards writing, continuing education and publications.

Through its membership, ASHRAE writes standards that set uniform methods of testing and rating equipment and establish accepted practices for the HVAC&R industry worldwide, such as the design of energy efficient buildings. The Society's research program, currently more than 100 research projects worth nearly \$8 million, investigates numerous issues, such as identifying new refrigerants that are environmentally safe. ASHRAE organizes broad-based technical programs for presentation at its semi-annual meetings and co-sponsors the International Air-Conditioning, Heating, Refrigerating Exposition, the largest HVAC&R trade show in North America.

ASHRAE's Long Range Plan establishes goals for five or more years into the future. It begins with a vision of what ASHRAE should be in the future, taking into account external factors that will impact the Society and the industry it embraces. The plan consists of three parts: mission statement, vision statement and goals.

Mission Statement

ASHRAE will advance the arts and sciences of heating, ventilation, air conditioning, refrigeration and related human factors to serve the evolving needs of the public and ASHRAE members.

Vision Statement

ASHRAE

- will be the global leader in the arts and sciences of heating, ventilation, air conditioning and refrigeration.
- will be the foremost, authoritative, timely and responsive source of technical and educational information, standards and guidelines.
- will be the primary provider of opportunity for professional growth, recognizing and adapting to changing demographics, and embracing diversity.

Goals

- Provide comprehensive education programs that enhance opportunity for professional growth.
- Respond to current and emerging heating, ventilating, air-conditioning and refrigerating issues.
- Ensure timely transfer of information. Provide for diverse global growth.
- Provide for diverse global growth.

the 1990s, the number of people in the world who are illiterate has increased from 1.1 billion to 1.2 billion (UNESCO 2003).

There are a number of reasons for this increase. First, the population of the world has increased from 5.3 billion in 1990 to 6.1 billion in 2003. Second, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003. Third, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003. Fourth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003. Fifth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

There are a number of reasons for this increase. First, the population of the world has increased from 5.3 billion in 1990 to 6.1 billion in 2003.

Second, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Third, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Fourth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Fifth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Sixth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Seventh, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Eighth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Ninth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Tenth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Eleventh, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Twelfth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Thirteenth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Fourteenth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Fifteenth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.

Sixteenth, the number of people who are illiterate in the world has increased from 1.1 billion in 1990 to 1.2 billion in 2003.
